

GENERAL CONSTRUCTION BROCHURE

WealthPride delivers full-spectrum construction solutions tailored to residential, commercial, industrial, and institutional clients. Our expertise spans:

- **Turnkey Project Execution** From site preparation to final commissioning, we manage every phase with precision, ensuring timely delivery and cost control.
- **Reinforced Concrete Structures** We specialize in high-load bearing systems for multi-storey buildings, industrial plants, and infrastructure projects.
- **Civil Works** Including roads, drainage systems, culverts, and foundations—engineered for durability and compliance with regional standards.
- **Project Management & Quantity Surveying** Our certified professionals ensure transparent budgeting, scheduling, and quality assurance across all project stages.

Residential Structures

•Single-family homes

- Load-bearing brick walls with reinforced concrete slabs
- Decorative brick facades and arches

•Townhouses & Apartments

- Multi-story brick buildings with structural or partition walls
- Brick cladding for aesthetic appeal

•Boundary Walls & Fencing

- Solid brick walls with steel inserts or decorative coping
- Can include security features like razor wire or electric fencing

Commercial & Institutional Buildings

•Office Blocks

- Brick veneer over steel or concrete frames
- Exposed brick interiors for industrial aesthetics

•Schools & Clinics

- Brick classrooms and treatment rooms with high thermal mass
- Easy-to-maintain surfaces and sound insulation

•Retail Shops

- Brick storefronts with large display windows
- Often combined with steel roofing and signage frames

Utility & Infrastructure

•Water Reservoirs, Tanks & Sewer Systems

- Brick-lined underground tanks with waterproofing;
- Concrete & Hybrid sewer systems & mains.

•Public Toilets & Ablution Blocks

- Brick walls with ceramic finishes and steel roofing

•Roads & Bridges

- Transport infrastructure and associated civil works

GENERAL CONSTRUCTION BROCHURE

Decorative & Landscape Features

- **Retaining Walls**
 - Brick walls with reinforced concrete footings
- **Garden Walls & Planters**
 - Brick structures with ornamental patterns or mosaic inlays
- **Outdoor Kitchens & Braai Areas**
 - Brick counters, fire pits, and pizza ovens with steel grills

Hybrid Enhancements

Many brick structures are enhanced with steel for added strength and flexibility:

- **Brick walls with steel lintels and beams**
- **Steel-framed windows and doors in brick openings**
- **Brick columns with reinforced steel cores**
- **Residential & Commercial Steel Security Structures**
- **Residential & Commercial Steel & Aluminium Structures**
 - **Balustrades & Railings**
 - Intricate designs for staircases, balconies, and terraces
 - Can be paired with glass or wood for a modern look
 - **Pergolas & Gazebos**
 - Steel-framed outdoor structures with artistic roofing
 - Ideal for gardens, patios, or poolside lounging
 - **Canopies & Awnings**
 - Stylish steel-framed covers for entrances or carports
 - **Decorative Screens & Panels**
 - Laser-cut steel used for privacy, shading, or wall art
 - Often powder-coated in bold colors or metallic finishes
 - **Steel Columns & Beams**
 - Exposed structural elements that double as design features
 - Industrial, rustic, or minimalist aesthetics

Our Processes

1. Site Preparation & Civil Works

- Land clearing, grading, and excavation
- Soil testing and geotechnical surveys
- Foundation construction (strip, raft, pile)
- Plumbing, Mains, Stormwater drainage and access roads

2. Structural & Architectural Works

- Reinforced concrete framing and blockwork
- Roofing systems (truss, slab, steel sheeting)
- Interior finishes: plastering, tiling, ceilings, partitions & electrical works
- External works: plastering, paving, landscaping, fencing & walling as well as decorative structures.
